Master of Business Administration - Management

Fully Online & Flexible Learning

Industry-Aligned Specializations

Global Business Curriculum

Real-World Capstone Project

Collaborative & Interdisciplinary Approach

Career-Ready Skills in Leadership, Tech, & Analytics

The Master of Business Administration (MBA) – Management at Florida Coastal University is an industry-relevant program designed to develop future-ready business leaders. It blends advanced business knowledge with practical applications to prepare students for today's complex and competitive global business environment.

Focused on leadership, organizational strategy, innovation, and decision-making, the Management specialization equips students to plan, execute, and lead high-impact initiatives across industries. Graduates are prepared to take on senior roles in operations management, corporate strategy, consulting, and entrepreneurial ventures with confidence and integrity.

Program Overview

The Master of Business Administration (MBA) - Management program is structured as a 36-credit hour fully online degree that strengthens core business acumen while expanding expertise in organizational leadership and strategic decision-making.

It is designed to develop a multidimensional understanding of management in the business world, from operations and human capital to innovation, global competitiveness, and corporate governance. Students gain real-world experience through leadership case studies, strategic simulations, and interactive coursework - all delivered via a flexible, student-focused online platform.

The program includes:

- 24 credit hours of core business courses
- 9 credit hours in a management specialization
- 3-credit Capstone Project

Why choose this program?

- Focused on real-world management skills like strategic planning, organizational leadership, and operational excellence
- Combines advanced business knowledge with hands-on management training
- Includes simulations, case studies, and capstone projects for practical learning
- Prepares you for analytical and leadership roles in operations, corporate strategy, and general management
- Builds leadership, decision-making, and analytical capabilities tailored to the management sector
